

Prescription Medications During Emergencies & Disasters

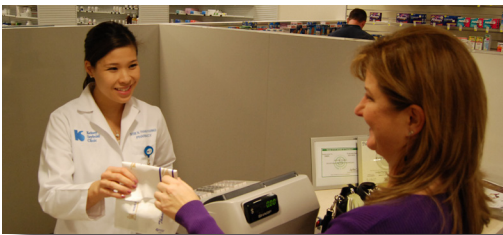

Florida's **Emergency Prescription Refill** law guarantees you access to a refill during a disaster **if** your county:

- Is currently under a hurricane warning issued by the National Weather Service
- Is declared to be under a state of emergency in an executive order issued by the governor, **or**
- Has started its emergency operations center and its emergency management plan

The Emergency Prescription Refill law also allows individuals elsewhere in the state to access an emergency **72-hour refill**.

Please talk with your doctor and pharmacist in advance about how the Emergency Prescription Refill law can help you.

Make sure your **Emergency Kit** includes a list of all your medications, including your prescribed medications. List the name of the doctor who wrote the prescription, the name of the drug or medication, the amount to take and the name and location of your pharmacy.
